PARCO RURALE	9

PIANO DEL COLORE: PREMESSA

Conversione delle cromie storiche più ricorrenti del Comune di Ravenna nella tabella colori NCS.

I codici colori sono il risultato di una traduzione delle cromie storiche derivate dall'analisi effettuata durante la rilevazione del centro storico e del territorio rurale all'epoca della redazione del precedente strumento urbanistico: andranno quindi sempre verificati, tramite campionature in situ, prima di procedere con la scelta cromatica definitiva.
